Sustainable Berea Meeting Minutes

Friends Meeting House
300 Harrison Street
Berea KY

We talked about the work we had done in our neighborhoods. Joane Moore said they had done a progressive dinner with about 5 households in Wolf Gap. Cheyenne and Richard Olson passed out the minutes from their first neighborhood meeting with five households. Rachel and Joe talked about their discussions with a couple of neighbors they have met since their recent move to Berea. We discussed that neighborhood 'boundaries' might not be clearly defined in some areas, and that each group will just have to make an initial definition.

The raised beds and fruit/nut tree planting workshops are scheduled for April 7, Saturday. The following people expressed interest in having a raised bed and being in charge of distributing trees:

Mike and Peggy Rivage-Seul
Tiffany Cox
Joanne Moore
Rachel and Joe
Annalou Ritchie
Pat Osevedo

Pat Osevedo said she has a lot at the end of Elm Street off Scaffold Cane that she would like to make into a community garden plot.

There are wood chips available for mulch for free at a location on Scaffold Cane Road.

John Capillo said that David Kennedy is very good with gardening and should be pulled in to help with the raised beds project. His e-mail is Leafforlife@yahoo.com.

Anna Lou said she would write the business of the month column for the next newsletter and it would be about Happy Meadow Health Foods..

The next meeting and pot luck is March 28, Tuesday at the Friends Meeting House on 300 Harrison street.
